Local merchants are developing considerable taste and business thought in the arrangement of their window displays. A lot of attractive windows have been put up by our reporter this winter, if then, on the other hand, we noticed some window displays, while appearing neat and repelling a good deal of trouble expense, were not representative suggestive of the lines carried all, and really were wasted energy. The window display, like the art of the merchant, should be made to promote the sale of the goods carried by the merchant, and they will not give value.

There appears to be nothing doing in the direction of a rabbit hunt. It is stated by some that there are no rabbits worth dening in the valley this winter, but are inclined to discredit this statement, since the people of surrounding settlements appear to find plenty of rabbits. But if it is not a lot of rabbits it must be a dearth of each fellow waiting for some else to throw down the challenge. Joseph Fife says the Westsiders are ready to hunt the boys on the East side of Main street, if they will not be the challenge. We are not quite numerous on the East side, but give Enoch and Hamilton's Fort, a doggone if we won't try you, Jo, at it if we can find any rabbits to st.
